**SCHEDULE "A" TO By-Law 2-2020  
Town of Ste. Anne  
Special Service Plan No. 1-2020  
for  
Collection and transportation of solid waste and recyclable materials  
Pursuant to Subsection 314 of the Municipal Act**

**A. Description of the Proposed Special Service**

The Town of Ste. Anne wishes to establish a special service plan for the collection and transportation of household waste and other waste, and recyclable materials from residences and businesses within Town. This special services plan will apply for the years 2020 to 2023 inclusively. This by-law replaces By-Law No. 7-2016.

The Town of Ste. Anne provides the service and has done so for many years. The costs are comprised of the actual costs, Consumer Price Index (CPI) adjustment and a contribution to a reserve fund established for the replacement of waste equipment.

House waste does not include any hazardous or chemical wastes, motor vehicle parts, used oil, animal carcasses or any other waste not normally associated with residences.

**B. Special Service area to be levied**

Special Service area to be levied under this proposal will be all property (taxable, grant-in-lieu and otherwise exempt) receiving solid waste and recyclable material collection and transportation services within the Town limits of Ste. Anne. Vacant lots and railway property are excluded.

**C. Cost of the Service 2020, 2021, 2022 and 2023**

The estimated cost of the service shall be the cost to provide for the collection and disposal of the waste and recycling collected for all properties that receive the service.

	2020	2021	2022	2023
Estimated Total Cost to Tax Payers	264,012.90	271,933.29	280,091.29	288,494.02

**D. Method and rate of calculating the proposed Special Service Tax**

The method of calculating the Special Service Tax will be based on an amount per parcel for both municipal and contract waste and recycling collection and transportation. The rate includes an increase to reflect actual waste and recycling collection and transportation costs, and a contribution of \$25,000 per annum to a reserve fund established for the replacement of waste equipment. Year two to four will incur an annual increase of approximately 3%.
