 BY-LAW NO. 8-2023
 SCHEDULE "A"
 SPECIAL SERVICE PLAN NO. 1-2023

Special Service Plan for Collection and transportation of solid waste and recyclable materials Pursuant to Subsection 314 of the Municipal Act

A. Description of the Proposed Special Service

The Town of Ste. Anne wishes to continue the established special service plan for the collection and transportation of household waste, yard waste, and recyclable materials from residences and businesses within the Town. This special services plan will apply for the years 2024 to 2026 inclusively. This by-law replaces By- Law No. 2-2020 that is set to expire at year end 2023.

The Town of Ste. Anne provides the service and has done so for many years. The costs are comprised of the actual costs, Consumer Price Index (CPI) adjustment and a contribution to a reserve fund established for the replacement of waste equipment.

House waste does not include any hazardous or chemical wastes, motor vehicle parts, used oil, animal carcasses or any other waste not normally associated with residences.

B. Special Service area to be levied

Special Service area to be levied under this proposal will be all property (taxable, grant-in-lieu and otherwise exempt) receiving solid household waste, yard waste, and, recyclable material collection and transportation services within the limits of the Town of Ste. Anne. Vacant lots and railway property are excluded until such a time they should start receiving the aforementioned services.

C. Cost of the Service 2024, 2025 and 2026

The estimated cost of the service shall be the cost to provide for the collection and disposal of the waste and recycling collected for all properties that receive the service.

	2024	2025	2026
Estimated Total Cost to Tax Payers	415,695.59	433,692.51	452,593.35

D. Method and rate of calculating the proposed Special Service Tax

The method of calculating the Special Service Tax will be based on an amount per parcel for both municipal and contract household waste, yard waste, and recycling collection and transportation. The rate includes an increase to reflect actual waste and recycling collection and transportation costs, and a contribution of \$73,000 per annum to a reserve fund established for the replacement of waste equipment. Year two to three will incur an annual increase of approximately 4%.
