A GUIDE TO THE SUBDIVISION PROCESS

Department of Municipal Relations
Community and Regional Planning
Steinbach Regional Office

WHAT IS A SUBDIVISION?

A subdivision is the division of a parcel of land described on a certificate (or status) of title. A subdivision can occur when a single land title is split into two or more parts, property boundaries are rearranged, or a lease, mortgage or other instrument is registered that has the effect of subdividing the parcel.

WHEN IS SUBDIVISION APPROVAL REQUIRED?

With a few exceptions, a subdivision must be approved under *The Planning Act* before it can be accepted for registration at the Land Titles Office. (The legal requirements for subdividing land are governed by Part 8 of *The Planning Act* and The Subdivision Regulation.)

WHO APPROVES A SUBDIVISION?

The Minister of Municipal Relations is the approving authority for subdivisions outside of the City of Winnipeg. In the Steinbach region, this responsibility has been delegated to the regional office of the Community and Regional Planning Branch of Municipal Relations.

Subdivisions also require approval from the affected municipality. Council may have conditions and fees that need to be satisfied or paid as part of their approval.

It is recommended that you discuss your proposal with the Community & Regional Planning office to determine the policies and regulations that may relate to your application. The advice is free and may save you time and money. They can also assist you in completing your application. To set up an appointment to discuss your proposal, please call 204-346-6240.

STANDARD SUBDIVISION PROCESS

Standard subdivisions are all subdivisions that create two or more lots (and single-lot subdivisions that do not meet the criteria of the Minor Subdivision process). The Standard subdivision process follows nine steps.

❑ SUBMITTING THE APPLICATION

- The applicant submits their subdivision application to Community and Regional Planning, 240-323 Main Street, Steinbach MB R5G 1Z2.
- The application must be accompanied by the following documents:
 - A Surveyor's Application Map (SAM) prepared by a licensed Manitoba Land Surveyor.
 - A cheque or money order for \$510 payable to the Minister of Finance. (Debit or Credit Cards are not accepted).
 - Status (or Certificate) of Title for all land included in the subdivision from Manitoba Land Titles. The title cannot be more than 30 days old. Check with your surveyor if he/she is able to provide this for you.

❑ REVIEW & CIRCULATION

- The planner reviews the subdivision application and circulates the application to government departments and agencies. (ex. Land Titles, Hydro, Bell MTS, Sustainable Development, Infrastructure, Agriculture, etc.)
- Government departments and agencies have twenty (20) days to provide comments. Government agencies and boards may ask for an extension past the twenty days if required.

❑ REPORT TO COUNCIL

- A planner reviews the comments received from the government agencies and departments and prepares a Planning Report (Report to Council) with recommendations for municipal council.
- Council reviews the Report to Council along with the subdivision application. Council can either approve the subdivision application with or without conditions, or reject the application.

❑ CONDITIONAL APPROVAL

- If Council approves the subdivision, Community and Regional Planning may issue a Conditional Approval letter and send it to the applicant. If Council approves the application despite objections from any commenting department or agency that cannot be resolved, the approving authority may reject the application.
- The Conditional Approval letter is divided into two parts: requirements and conditions. It is **the applicant's responsibility** to complete all items listed under the requirements and conditions.
- Once the applicant completes the requirements and conditions within the required time frame, Community and Regional Planning issues a Certificate of Approval and returns the approved plan to the applicant.

❑ CERTIFICATE OF APPROVAL

- The applicant submits the Certificate of Approval and the approved Plan to the Land Titles Office (LTO) for registration. It is recommended that you have your lawyer complete this step in this process.

MINOR SUBDIVISIONS SINGLE LOT SUBDIVISIONS

Single-lot subdivisions that meet pre-determined criteria may follow the Minor Subdivision process, which reduces processing time by approximately two and a half months. The reduction in processing time is achieved by Community and Regional Planning issuing conditional approval prior to municipal approval. The Minor Subdivision follows six steps:
